

Six years ago the Armistice was signed, and in the following years the men who carried the greatest flag in the world have become leaders in every community in the nation.

Tonight and Thursday partly cloudy to cloudy; colder Thursday night in west portion.

## JUDGES TO FACE GLARE OF PROBE ON INDIAN DEAL

Several Counties Mentioned in Which Alleged Irregularities Exist

### SHORT TO BE ASKED

Developments More Sensational Than Expected at Outset

(By the Associated Press)  
MUSKOGEE, Nov. 12.—Hearing of testimony apparently involving judges of numerous Oklahoma counties in alleged Indian estate irregularities continued at 9 o'clock this morning by the congressional committee for the investigation of dual administration of Indian affairs.

Members of the committee indicated that they would ask the assistance of Attorney General George Short in completing the investigation. Subpoenas were issued for several of the accused judges to appear before the committee.

Testimony introduced in the first day's session was more sensational perhaps than the committee had anticipated. Getting off to a tame start the firework was ignited by J. T. Eggleston of Denison, Texas, J. H. Finley, probate attorney, and La Fette Walker, an Okmulgee lawyer.

Nine counties, Le Flore, McCurtain, Choctaw, Pushmataha, Marshall, Carter, Love, Murray and Garvin were named as being infested with "lease pirates" by witnesses. Officials of each county were named as implicated in collusion with county judges to acquire oil leases and lands for trivial sums.

## TENTH VICTIM FROM POISON IN ELKS HOME

(By the Associated Press)  
LYNCHBURG, Va., Nov. 12.—James R. Collins, New York City, Lodge No. 7 of the Elks, died today, bringing the total number of victims of poison elder served at the Elks home at Bedford Monday to 10.

Sixteen of the aged residents of the home made ill by the elder and now confined in the hospital were reported today as showing signs of improvement.

LYNCHBURG, Va., Nov. 12.—Although most of the 17 aged members of the B. P. O. E. now in the hospital at Elks' national home at Bedford, suffering from arsenic poisoning, were improved today, grave concern still is felt for five of them. None is out of danger, Superintendent Mosby said, and it may be 36 hours or more before their exact condition is determined.

The death last night of W. H. Hutchinson of Cory, Pennsylvania, brought the death list to nine which resulted when residents of the home drank elder from a barrel, which had been used previously to hold a plant spraying preparation. One of the victims died almost instantly and seven others died Monday.

## TELEPHONE MESSAGE MAY SOLVE MURDER MYSTERY

(By the Associated Press)  
LOS ANGELES, Nov. 12.—A telephone clue to the identity of the person, who last Monday night shot and killed Harry I. Katz, musician and connoisseur of diamonds, was being followed by police investigators today.

The clue developed during the questioning of Miss Dorothy Carroll, 22, an intimate friend of the slain man, according to the Los Angeles Examiner. Miss Carroll, says the paper, told police she was the object of bitter rivalry between Katz and another man, whose name is withheld, and that after the slaying a telephone message came to her from this man warning her to "tell police nothing" and threatened her with death if she disobeyed.

The unnamed man, whose arrest is expected hourly, crossed Katz in business as well as in love, Miss Carroll is quoted as saying. She also revealed that he labored under fear for several days before his death.

## WIDOW OF HARDING REPORTED IN STRONGER CONDITION

(By the Associated Press)  
MARION, O., Nov. 12.—Mrs. Warren G. Harding, critically ill at White Oaks farm, home of Dr. Charles W. Sawyer, near here, was somewhat stronger this morning, having slept five hours last night, according to a bulletin given out this morning by Dr. Sawyer.

"Complications and other conditions which have been present are unchanged," Dr. Sawyer said.

## Speculations in Stock Continued In New York Riot

(By the Associated Press)  
NEW YORK, Nov. 12.—Speculation in stocks continued to run riot in today's market, another deluge of buying orders sending more than two dozen to new peak prices for the year in the first half-hour with total sales in excess of 350,000 shares in that period.

Early gains ranged from fractions to four points and except in a few cases were well maintained throughout the first hour's trading, despite an enormous amount of profit taking. Buying was stimulated by a reduction in the renewal rate for call money from two and one-half to two per cent.

## FOLLIES BERGERE ATTRACT CROWDS

Style Show Given by Ada Merchants Privates Feature of Show

Because of the unusual attendance at the Norman Howard post's musical revue, Follies Bergeres, theatergoers, who were unable to attend the first performance, will be given a second opportunity in the second show to be presented at the Convention Hall Thursday night.

Miss Mary B. Browne, who directed the show presented here last night, Armistice night, will remain here and have complete charge of the second show for tomorrow night.

The Follies Bergeres, a collection of singing, dancing and general round of fun and frolic, proved satisfactory to the audience that swelled the doors of the Convention Hall in possibly the largest crowd ever attending a home talent presentation since the erection of Convention Hall here.

The cast of characters in the presentation proved trained for their parts and the presentation was given without a flaw.

On the sideline of the legion play Tuesday evening was a style show which was presented at the entertainment. Ten of Ada's leading stores joined in giving a style show that brought forth the latest in ready-to-wear, from golf necessities to the most formal wedding or evening gown. Showing the last minute colors and cuts in business men's suits, the sport outfit for young lady, the vest that buttons just like dad's and hip pocket suits for the little juniors, the afternoon dress and the big bottomed trousers, the show took in every clothing necessity.

Those showing for the Model Clothiers were Johnnie Philitz, Wayne Evans Jr., and Tom Cook Jr. Shaw's presented four evening gowns, worn by Mrs. Lucille Banks, Miss Gibson, Mrs. Hazel Hansard and Mrs. Ownley.

From the Fashion both sport and evening dresses were shown by Mrs. Homer Phelps, Mrs. Mae Bishop of Shawnee, Mrs. Fleet Cooper of Ardmore, Mrs. Minnie White, Miss Hazel Chadd and Miss Carrie Louise Harris.

M. C. Taylor company with Gib Polly as bridegroom and Charles Johnson as best man made quite a hit.

The Style Shoppe in showing the necessities for the bride and her attendants presented as models, Miss Mignon Goodwin, Miss Katherine Griffin, Miss Elizabeth Prince, Miss Willette Driskell, Miss Annie Laura Johns, Miss Eula Lane, and little Miss Carolyn Case.

Simpsons in modeling two evening gowns selected Mrs. Beuna Smith and Mrs. Earl Sumner.

Wilson's in presenting one afternoon dress, two evening gowns, and two men's suits for models selected Miss Ruby West, Miss Ethel Sturdevant, Miss Mabel Eaton, Parker Norman and Mike McCoy.

Drummond & Alderson, store for gent's up-to-date furnishings, was most effectively shown by Paul Alderson.

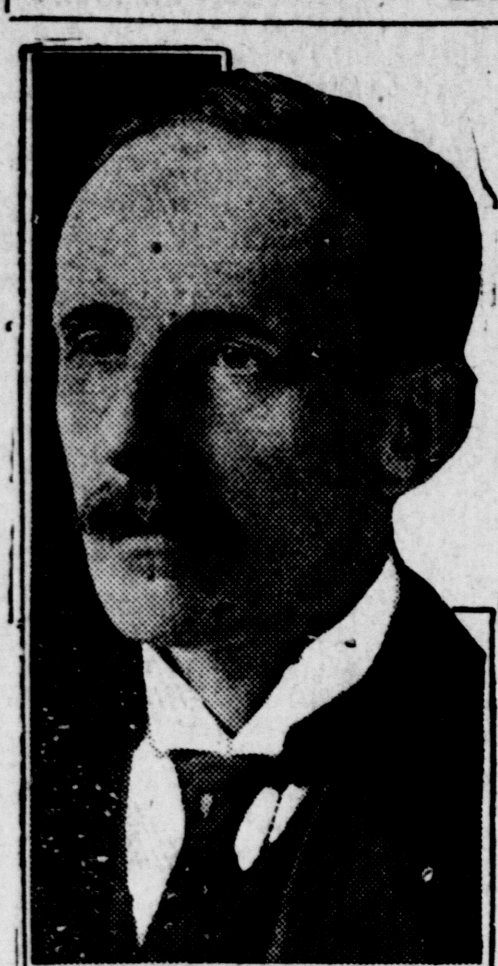

The LaVogue presented as models Miss Marvin Brydia, Miss Betty Cain, Miss Mixie Goodwin, Miss Sarah Chambers, Louise Chambers and Miss Velma Pineham.

## Jurist Issues His Order in Trial of Representative Hill

(By the Associated Press)  
BALTIMORE, Nov. 12.—Charging the jury in the trial of Representative John Philip Hill in the United States district court for alleged violation of the Volstead Act, Judge Morris A. Soper directed the jury-men to ignore the definition on intoxication as expounded by Dr. Harvey W. Wiley, pure food expert, and Dr. Howard A. Kelly of Baltimore. These witnesses testified yesterday that cider with 2.70 per cent alcohol and wine with 11.64 per cent alcohol were intoxicating.

He also told the jury to find Colonel Hill not guilty of the fifth and sixth counts which charged him with maintaining a common nuisance at his home, No. 3 West Franklin St.

## LOONEY ARMISTICE DAY SPEAKER HERE

National Degradation Worse Than Death, Speaker Tells Listeners

Senator Joseph C. Looney, in an address in the Armistice Day program at the Convention hall yesterday pointed out that American people consider National degradation worse than death and that this was shown in the World war when the sons of bankers and farmers sacrificed alike and breathed the words, "My Country," with the same feeling. This spirit gave rise to a veteran organization and as a consequence the American Legion, which has declared for God and country upon whose sound principles it is founded. The things for which it stands is to legionnaires what the sermon on the Mount is to Christians.

The legion, as a humanitarian agency, has insisted on hospitals for the soldiers, secured membership to those hospitals for the wounded, as well as governmental assistance toward educating the crippled veterans.

The objective of the legion, according to Senator Looney, is to help those who do not have a command of the English, to obtain the stamping out of illiteracy, to Americanize the immigrant, to settle international disputes by reason rather than by force, and law and order with liberty and justice.

Therefore, Looney said, the American people are assured of the things they love most dear, so long as there are men and women with the same spirit the same enthusiasm and the same high ideals that are responsible for the "Land of the Free and the Home of the Brave," America will stand.

The program, other than the address: Invocation by Rev. W. A. Merrill of Shawnee.

America—Assembly, led by Captain Montin of the college faculty. Star Spangled Banner—College Band.

Benediction by Rev. R. E. McCain.

## Five Celebrate Armistice

Two drunks, two disturbers of the peace and one arrest for indecent conduct concluded Ada's rousing celebration of the 6th anniversary of the closing of the World war so far as city officers are concerned.

## McKEOWN LEFT TODAY FOR CONGRESS SESSION

Congressman and Mrs. Tom D. McKeown left Ada today overland for Washington to be ready when the short session of congress opens. They will be joined in Missouri by Mr. and Mrs. Blaine Gilbert, who will make the remainder of the trip with them to the national capital.

The short session will continue as long as necessary to complete the scheduled legislation or until March 4 next. After March 4, Congressman McKeown expects President Coolidge to call a special session. If that does not happen, he will return to Ada and spend a big part of next year with home folk.

Ada's congressman was returned last week by one of the largest majorities ever received by a congressional nominee in the state. He is going back with the prestige of several years of service and the goodwill of all his fellow workers in Washington, according to all the reports brought back from the national capital.

## RELIGIOUS AUTHORITY IS EVANGELIST'S SERMON

"Religious Authority" was the subject of Rev. W. A. Merrill's sermon delivered at the revival meeting at the First Christian church last night. The speaker handled this subject in an unusual, unique and convincing manner saying in part: "When physicians of different schools and prejudices agree on the diagnosis and treatment of a disease there is established an authority in medicine. The supreme court is the highest authority in law. So, when preachers and other Bible students agree on a safe, scriptural plan of salvation of the soul from sin, there should be no further question or hesitation. The students of God's word are agreed that the race is afflicted with sin in the heart, and there is agreement that wholehearted faith in and obedience to the Lord, Jesus Christ, will save. Why should any one seek to eliminate or substitute?"

Tonight is to be high school night and all students and teachers of the city schools are earnestly invited to be present. The subject for the evening sermon will be "The Fall and Redemption of Man."

WASHINGTON, Nov. 12.—The administration has no present intention of pressing for tax legislation at the coming short session of congress, it became known today after Secretary Mellon had conferred with President Coolidge.

## BOY'S STORY MAY REVEAL MYSTERY

Elaborate Funeral Rites to Be Afforded Leader of Underworld

(By the Associated Press)  
CHICAGO, Nov. 12.—A school boy's story that he saw a young fashionably dressed woman drive the automobile in which escaped the three slayers of Dean O'Bannon, notorious gang leader, florist and hi-jacker was used as a guide today by police in their efforts to run down the slayers.

Anthony Persch, 13, said he was one of several passing O'Bannon's flower shop when the shooting occurred. One of the three men, who ran out, bumped into him and knocked him down, he told investigators. The men ran to the corner and crowded into an auto the door of which was held open by a woman, the boy said.

Investigators had checked up theories thus far, but admitted they were without definite information. Meanwhile, preparations for the dead gangster's funeral services for Friday from an undertaker's near where he spent his boyhood and in the neighborhood where he dominated as a gang leader.

Preparations indicate it will be one of the most pretentious funerals ever accorded an underworld character, surpassing even that received by Frank Capone, gunman, slain in a pistol fight with police. A cortege a mile and a half long and \$50,000 worth of flowers paid tribute to Capone's memory. And since Capone was a lesser light than O'Bannon so also will his funeral be out done.

Flowers valued at tens of thousands of dollars already have been ordered by leaders of gangs, open allies, or secret enemies of the dead man.

Many of them will come from the flower shop in which he was shot down among his roses and chrysanthemums.

## Bets Made on Church Collectors.

(By the Associated Press)  
RUSHDEN, Eng.—"Gambling is actually carried on in our churches," said the Rev. J. A. Sutherland speaking at a meeting of the Northamptonshire Baptist Association. "During a service, it has been known," he declared "that when the two sidesmen were taking the collection, young people in the gallery bet on which of the two would finish first."

## Electric Current Brings Death for Three Pedestrians

(By the Associated Press)  
CONROE, Tex., Nov. 12.—Three men were killed instantly today and a fourth seriously burned when they came in contact with a 2,300 volt wire which had fallen across the side walks. The dead are: J. R. Beakley, merchant of this place.

W. G. Rye of Mivid, Texas. Frank Rye of Taylor, Texas. It is believed by those who found the bodies that Beakley encountered the wire as he was going to his place of business about daylight this morning and that the others made an effort to untangle him.

## ADA HI SUFFERS BREAKS AND LOSE

First Defeat of Season Is Encountered in Battle At Henryetta

Despite the fact that Ada boosters showed as much pep on their return from Henryetta as they did when the train left the yards Tuesday noon, Ada high school suffered its first gridiron defeat of the season yesterday afternoon at Henryetta.

The final whistle pronounced a score of 26 to 14 disfavoring the Ada team but the score did not bespeak the closeness of the game or the breaks that went against the Ada team.

Before the Ada delegation arrived at the Henryetta stands, the Henryetta team had piled up a score of 13 points, one touchdown as a result of the first kickoff being fumbled by Rayburn and recovered by a Henryetta player for a touchdown and the next touchdown, which followed immediately when a pass was intercepted by a Henryetta player for a touchdown on the third play after Ada had received the second kickoff.

With such unusual breaks going against the Ada team, it battled down the field near the end of the second quarter and rushed the ball over for the touchdown, Burkhardt turning the trick. Early in the third quarter a fierce battle on the Henryetta line netted another touch down and with the aid of Joe Baker's toe two extra points were added from the touchdowns, leaving the score to stand 14 to 13 in favor of the Ada team.

As the third quarter wore on it seemed that the final score would stand with the extra point in Ada's favor but a fumbled kick on Ada's 25-yard line turned the tide of victory from the Ada team and netted another marker for Henryetta. Henryetta took advantage of two long passes and another burst of speed to rush over the last touchdown as the timer's clock pounded off the last minutes of the play.

The individual playing of Burkhardt and Montin was the outstanding feature of the Ada team's offense. Montin time after time ripped the Henryetta line for long gains while Burkhardt proved in class one end runs and short darts through line. The Ada line, however, showed up worse in the game at Henryetta than on any of its previous fights.

While no accurate check was kept on the number of first downs made by the Ada team, it is believed that the Ada team gained more ground from the line of scrimmage than did the Henryetta team.

The Ada delegation proved wide awake despite the tide of the battle and Ada's band performed conspicuously during the halves and during the play.

## DRAMATIC ARTS CLASS GAINING REPUTATION

The Dramatic Arts club of the East Central State Teachers College under the direction of Miss Bess Shauliss, has gained an enviable reputation throughout the district and especially in the towns in Pontotoc county, where a number of entertainments have been offered by students.

Short plays presented at a number of towns in the county in conjunction with the Boy Scout benefits have proven especially appreciative and through the class, the College has prospered in good will.

Miss Shauliss as director of the club will present a play "Tommy's Wife" at Vanoss tonight, for the benefit of Vanoss Scouts and the Young People's Baptist Training class of Vanoss.

The cast for the play at Vanoss tonight will include: Misses Elizabeth Johnson, Lucile Satterfield, Helen Frossard, Mary Ruth Brisler, Mamie Christian and Messers Willard Owen, James Waters and Odus Hornaker.

Miss Anna Joe Smith will appear in vocal music numbers.

## LODGE IS GIVEN LAST TRIBUTE IN BOYHOOD CHURCH

Dignitaries of City, State and Nation Present at Final Rites

## CITY BOWS IN GRIEF

Life Long Friend of Senator Offers Prayers in Last Service

(By the Associated Press)  
CAMBRIDGE, Mass., Nov. 12.—In the simple rites of the Episcopal church, funeral services were held for Senator Henry Cabot Lodge today in Christ church which he had attended while a student in Harvard, where his marriage was solemnized and where the funeral services for his wife were held some years ago. In a voice that trembled with the intensity of his sorrow, Bishop William Lawrence of the Episcopal diocese of Massachusetts, classmate and life long friend of Senator Lodge, read the prayers.

Except for the presence of representatives of the nation, state, judiciary and other personages of public life, the funeral observances were kept as private as was possible in the case of a distinguished public man. Admission to the church was by ticket and there were many empty pews while thousands stood in the street outside.

According to the wish expressed by Senator Lodge, his body was placed in the family vault on the side of a hill overlooking Mt. Auburn lake in the cemetery of that name.

CAMBRIDGE, Mass., Nov. 12.—Representatives of the nation and state were assembled here today to attend the funeral of Senator Henry Cabot Lodge, member of the senate for 31 years, and for much of which time an important figure in national affairs. An early train from Washington brought to Boston a large delegation as an expression of mourning of the executive and legislative branches of the government.

Secretaries Hughes and Weeks assigned to represent the government, were among these arrivals. Yesterday Capt. Adolphus Andrews, naval aid to the president, who came to the city at the behest of the president as his personal representative, called on the family of Senator Lodge and tendered the president's sympathy. Special cars attached to the Federal express from Washington early today brought committees of the senate and house of representatives. Twenty-four states were represented in this congressional delegation of mourning.

City Flags at Half Mast. They found the city's outward expression in flags at half-mast everywhere. The state house, city hall, federal building and other official places in the city were ordered closed during the hours of the services. The town hall at Nahant, where Senator Lodge had come time after time from the affairs of the nation to preside with dignity over town meetings, was closed all day. Countless bells tolled at noon in many places.

The funeral services at Christ church, Cambridge, as simple as the ritual of the Episcopal church would permit, were held with Bishop Lawrence officiating for the last rites for his boyhood chum and classmate with the Rev. Prescott Everts, rector of the church assisting. Christ church holds only 420 persons and provisions were made for an overflow into the church yard which is close by Harvard University.

Burial will be at Mt. Auburn cemetery in the family lot in company with Longfellow, Sumner, Holmes, Shaw and others of the field of letters and high public service who had preceded Senator Lodge.

The family of Senator Lodge today accepted the president's offer of military forces as a guard for the senator to the extent that two soldiers accompanied the body as a guard of honor.

## End of Rum Row Proclaimed With October Statement

WASHINGTON, Nov. 12.—The "end of rum row" is predicted in a treasury department statement made public today, embodying a review of coast guard operation in October. "A large increase in the number of seizures," including several vessels acting as supply ships, is reported.

Progress in combating liquor smuggling is attributed in part to the increase of coast guard facilities provided for by congress and ratification of treaties removing certain restrictions on seizure of rum runners. When all boats and men provided for become available, it is said, the service is expected to be able to stop all leaks "at all of the worst locations" which are described as being too widely scattered for complete and effective work at present.

SPECIAL ASSEMBLY MAY INVITE GERMANY

League of Nations Membership May Be Extended to Germany

(By the Associated Press) GENEVA—A special assembly of the League of Nations is expected to be held at Geneva some time this winter to vote in Germany as a member of the league. Basing their explanation on the assumption that the German negotiations with the various powers will eventually succeed and that Germany will one day actually forward her application for membership, league officials express the opinion that the Council of the League will probably arrange for the special assembly.

It is believed that if the German negotiations have proceeded far enough and the German application is actually received in time, the council will take some action at its December meeting in Rome.

A special assembly for Germany naturally cannot wait for the arrival of delegates from distant corners of the earth. Hence it is planned that remote countries will designate their ambassadors or ministers in Europe to represent them at Geneva on this special occasion. Moreover, it is probable that representative instead of the three official delegates who under the rules attend the annual assemblies of the league, together with their substitute delegates and numerous experts.

As Germany has been told by allied powers that her entrance into the league must be in accordance with the covenant, without special exceptions or privileges, it is of interest to note that the question of admission is covered in Article 1 of the covenant.

This says that any fully self-governing state, dominion or colony may become a member if its admission is agreed to by two-thirds of the assembly, provided that it shall give effective guarantee of its sincere intention to observe its international obligations, and shall accept such restrictions as may be prescribed by the league in regard to its military, naval and air forces and armaments. However, it is understood by everybody that Germany will be given a permanent seat on the council as being one of the great world powers.

CHICAGO, Nov. 12.—Selection of a jury to try William Fahy, former postal inspector, and James Murray, politician, on charges in connection with the two-million-dollar mail car robbery at Rondout, Ill., last June was in prospect before adjournment of the federal court today.

So Different in Bringing Relief!

KARNAK

Andre's Sensational New Treatment Quickly Ends All Stomach Ills.

With demonstration after demonstration of the remarkable health-building powers of Karnak pouring in from all over Oklahoma it becomes more apparent every day that, in his famous new treatment, Andre has perfected something totally different and far better for relieving indigestion and bringing the system up to that strong, vigorous standard of health. Among the latest to testify, is Mrs. J. K. Beeton, R. F. D. No. 2, Box 487, Oklahoma City, who says:

"Before I got Karnak I suffered so terribly from stomach trouble and pains through my kidneys, side and back that I was hardly able to be up at times. No matter how carefully I dieted until I would almost suffocate, and my nerves scarcely let me sleep a wink."

"Well, Karnak has made my digestion perfect, put my kidneys in good condition and has all the same as made a new person of me. I sleep like a child nights and my housework is a pleasure now."

Karnak is sold in Ada exclusively at Gwin & Mays' and in Stonewall at Chas. Burnett's.—Adv.

Will Try to Beat Tommy Milton's Auto Record Of 156.4 Miles Per Hour at Ormond Beach

"SIG" HAUGDAHL TRAVELLING 150 MI. PER HOUR

ORMOND, Fla.—Special—Ormond - Daytona Beach is the finest, fastest natural speedway in the world. When Tommy Milton made a record of 156.4 miles per hour in his 16-cylinder Duesenberg on the beach here the world thought he was going some. But M. Moglia, commercial with the Ballot and Talbot Darraco companies of France has designed a 400-horse-power car built solely for speed, which will be accompanied to America by its owner. He proposes to shatter all existing records at Ormond-Daytona Beach and claims he has reduced weight in a new way. Each cylinder has a carburetor and a super-charger to permit a full fuel supply at highest possible speeds.

The beach now affords a straightaway of 25 to 30 miles, 300 feet wide of hard packed sand, smooth as a billiard table. The proposed erection of a 1,000 ft. bridge between New Smyrna and Daytona will give a continuous stretch of 70 miles of beach for long straightaways.

NEWS NOTES FROM MOVIELAND

One of our most dependable and best liked screen actresses is threatening to leave the kilns and devote herself exclusively to a tiny but tyrannical newcomer. Charming Letatrice Joy, heroine of many photoplays, is the film star we refer to and the we tyrant is her baby daughter, Letatrice Joy Gilbert.

Possibly Letatrice's latest break with her handsome husband, Jack Gilbert, has something to do with her distaste for the cinema spotlight. They were first married in 1918 after a whirlwind courtship of three days. They were divorced in 1921, but the ink was not dry on the decree when they made up their differences, eloped and were remarried. The latest decree was given Letatrice shortly before the birth of the baby. Motherhood is an absorbing occupation, but for as capable an actress as Miss Joy to give up her very successful career and be satisfied with unalloyed domesticity with even such a fascinating companion as Letatrice, Jr., is, we think, a trifle illogical. Later, we think she may want to come back (if she leaves for a time) to work for this same tyrannical young lady.

New Orleans is the birthplace of Olivia Burrell which is Letatrice Joy's real name. After eight months of stock on the legitimate stage she began her screen career with Selznick, and has worked for Metro, Hodkinson, Goldwyn, Paramount and First National. Her later pictures have all been made under the Paramount banner. One of her best known characterizations of late was as the heroine in the modern part of Cecil DeMille's "The Ten Commandments." "Changing Husbands," "Triumph," "Chanslaughter" and "Feet of Clay" are all recent pictures featuring this popular actress and "Modern Babylon" and "Grounds for Divorce" are her last to date.

Helene Chadwick has retired from the screen—for a month. She is furnishing her newly acquired Beverly Hills home.

Carmel Myers writes from Berlin that the most popular indoor sport of the Germans seems to be eating. She suggests that they are making up for the lean war days. They eat in tramways, trains, on movie sets, in wings and dressing rooms back stage and in orchestra seats in theaters. And in addition they have five regular meals a day. Carmel is now in Rome playing "Isis" in "Ben Hur."

Douglas Fairbanks' next picture will be a modern Spanish story, directed by Raoul Walsh who directed "The Thief of Bagdad." Part of the exteriors will be filmed in Spain and Mr. Walsh will start work on it as soon as he finishes "East of Suez," with Pola Negri. We are also told that in all probability Georgia Hale, young, beautiful and new in pictures, will be Doug's leading woman.

ROAD COURTESY IS OFTEN NEGLECTED

Many Little Things Make Motor Traveling Most Difficult on Highways.

(By ERWIN GREER, President Greer College of Automotive Engineering, Chicago.) When you are driving along a road and someone approaching from behind sounds his horn to pass, let him do so. Many times when driving along the highway you may have noticed drivers give the signal to the car ahead and try to pass only to have the car on the right hand side speed up.

Jangle's Driver's Nerves. It certainly jangles a driver's nerves when he finds the car ahead speeding up when he attempts to go by. There is no excuse for this sort of thing. If you want to pass, why should the man on the right step on the throttle and attempt to block you?

There is plenty of courtesy to be observed on the road besides mere theory. If we were more thoughtful of the other fellow, motoring would be a lot more pleasant.

Not Watching Road.

The other day a motorist reported that he was coming from Gary and was crossing the railroad tracks in South Chicago. There is a right angle turn there, and it is dangerous unless low speed is maintained. Coming around the turn a boy was observed driving a delivery wagon. He was taking about all the room to be had on the highway and when this motorist looked at him he found the chap was busily engaged in reading a letter and was not watching the road at all.

It is just such things as this instance that makes motor traveling hard and troublesome. If motorists would drive sanely there would be fewer disasters on the highways.

Remove Scratches From Car Body With Shellac

A car owner naturally takes pride in the finish of a new car and endeavors to retain its mirror-like luster as long as possible. But when work must be done on the car the finish often suffers. Often a button will scratch its way along a fender or the slipping of a screwdriver will leave an unsightly blemish. A method which has often given satisfaction, says the Automobile Digest, is to apply several coats of thin shellac until the scratch has been completely filled. When the last coat has dried it is rubbed with crocus cloth and a little olive oil, just enough to rub out the ridges where the new and old coats join.

Crocus cloth, used extensively by jewelers, is a polishing cloth of a much finer grade than the finest emery cloth and will rub down a surface without the semblance of a scratch. After no signs remain of where the two coats join, a rub-down with a good body polish will render the touch-up inconspicuous and restore the surface to its original appearance.

Plan to Keep Windshield Clear in Moist Weather

It is always annoying when at the last moment one is in a hurry to take up a meal or coming from out-of-doors into a warmer temperature, to find the lenses of one's glasses suddenly clouded with steam. Prevent this by washing the glasses perfectly clean. Dry them on a soft cloth, and then rub with a cloth which has been moistened with a very small amount of paraffin oil. All that is needed is the thinnest film to coat the surface, yet not enough to attract dust. This coating prevents the moisture touching the glass. It is convenient to have a cloth ready prepared. The same plan is excellent to keep the windshield of the automobile clear in damp weather.

Carbon and Compression

European automobile race drivers are experimenting with pistons that are raised and rounded at the top. They call this doming the pistons and find that it increases compression and power by forcing the gas vapor to occupy a smaller space when compressed. This is exactly what happens in the average motor (only on a smaller scale) when carbon cakes on the piston top. But the carbon pre-ignites the gas and thus wastes power. Knocking proves it.

UNION VALLEY

This part of the country was visited by a little touch of winter a few days ago.

Most all have their cotton picked and their children back in school.

Mr. and Mrs. Lee Blackwell took dinner with Mr. and Mrs. Mart Durbin Sunday.

Hiram Falter and Spaulding Lowery left Sunday for Oklahoma City.

The following spent Sunday with Mr. and Mrs. W. H. Murphy, Ben Rowlett and family of Ada, Mr. and Mrs. Phillips of Frisco, Mr. and Mrs. Falters and Violet Brown of this place.

Mr. and Mrs. Roby and son Charlie were the Sunday afternoon guests of Mr. and Mrs. W. H. Murphy.

Hazel Anderson took dinner with her cousins Ruby and Captola Anderson.

Mr. Hyde left Sunday for Western Oklahoma to pick cotton.

Miss Mary Ellen Hatcher who is attending East Central Teacher's College spent the week-end with her parents.

Louis Blackwell and J. W. Durbin spent Sunday with Hansel Kiddle.

Holley Constock and family returned last week from Arizona. Ralph Sparks and family have

returned from Nebraska. Mrs. Lowrey and children spent Sunday with Mrs. Bourn. Miss Velma Scott of Ada spent the week-end with Miss Bertha Haggard and Mr. and Mrs. Dean. Miss Catherine Brock spent the week-end in Ada.

The Union Valley Improvement Club met Wednesday night Nov. 12. A special program was given.

Annie and Wilma Jeter were in Ada Saturday night.

Mr. and Mrs. Haggard spent the week-end with their daughter Miss Bertha, teacher at this place.

Clifton Mayfield spent the week-end with his parents.

Mr. and Mrs. Frank Mayfield and family visited W. W. Jones and family at Colbert.

Mr. and Mrs. Lee Blackwell and son were in Ada Saturday.

Mrs. Riddle and son Hansel were in Ada Saturday.

Mrs. Durbin and daughter Marcia were shopping in Ada Saturday.

Miss Marcia Durbin and Fritz Townsend were Sunday guests at Hatcher's.

Don't forget the pie supper Friday night November 14. We will be glad to have the people of the surrounding community come and enjoy a good time.

Sunshine.

Skirts in Paris are now worn from 12 to 14 inches from the ground, but in America we are content with 8 to 10.

Tonight is High School night at the First Christian Church. Every student and teacher in the city is cordially invited to attend.

## BIBLE THOUGHT FOR TODAY

REMOVE FAR FROM ME vanity and lies: give me neither poverty nor riches: feed me with food convenient for me.—Proverbs 30:8.

## McADOO LOOMS AGAIN.

While we have never been strong for McAdoo, we must admit that the Democratic party lost its best bet when it failed to nominate him last June. Apparently he had sensed the trend of thought in America better than any other man who was seeking the Democratic nomination. And what was and is that trend of thought, or what line of endeavor must the Democratic party follow if it expects to win in the future?

There seems to be no doubt about the East's being hopelessly conservative and Republican. The New England and Middle Atlantic states, containing many manufacturing plants which look to the government for protection and subsidy and assistance in various ways, are interested in keeping the Republican party in power. They equally are interested in furthering their own interests at the expense of the South and the West. The only way the Democratic party can expect to win, therefore, is to unite the South and the West.

McAdoo seemed to sense this situation and thus when he left President Wilson's cabinet he made California his home. When he started his campaign for the presidency, he went through the South and West, carrying a message of progress. He almost entirely ignored New York and the other eastern states.

But McAdoo was a little early. The South and the West have not yet apparently come to realize that they must hang together or hang separately. They do not seem to realize fully that their interests are identical. But this realization is coming. LaFollette helped to keep the two sections apart this year, but LaFollette is through, and some man will probably rise up within the next two or three years who can unite the two sections and let the East know it is only part instead of the whole country.

The East plays the West against the South and even plays one party against another. In New York this year, Tammany Hall, it seems there can be no doubt, traded the national Democratic ticket to the manufacturing interests and in turn got them to accept Al Smith for governor. Such tactics cannot be for the best interest of the common people.

Whether it be McAdoo or some other man, we want to see the South and the West united in one common bond, and thus wring from the East the political power it now holds.

## SOME TIME—HOW SOON?

Some time in the more or less distant future, there will be no night,—at least man will have progressed so far in science that night can be blotted out. While Old Sol will daily take his sleep as at present, electricity will take his place.

If you do not believe this, stand on the beach of the Gulf or the ocean and watch the tide come in. Try to estimate in your own feeble brain how much power there is in one foot of beach. Then multiply this by every foot of the United States which is touched by tides. Then you will begin to grasp the significance of electricity in the future. Then construct a small propeller and attach any kind of small machine to it. Extend that propeller a few feet into an Oklahoma breeze and see the result. Multiply the energy created there billions of times and you begin to appreciate the amount of energy nature has stored in the winds which now blow unmolested this way and that.

Eventually electricity will be so cheap that fires will be kept going, electrically run, with no more thought of economy than we now have when we draw a bucket of water from the hydrant. Cars will run by electricity, machinery, lights, and probably every mechanical thing of any consequence.

The electrical world is in its infancy. As long as the tides have free reign, as long as the winds sweep by without giving up their stored energy, as long as the waters are permitted to run to sea without giving to mankind the energy the sun has given the drops of rain, so long will the scientifically inclined youth of America have worlds yet to conquer. You and I may not see the realization of this dream, but our children's children will.

The old saying about there being plenty of room at the top holds as true today as it did when the first man with a philosophical mind uttered it. What is more to the point is the steady climber rather than the fast one who arrives. The quick one thinks there is plenty of time so slow up and let the one who is slower overtake and pass him. Then he complains that fate has played him a mean trick. No doubt the rabbit that lost the race with the terrapin did the same thing.

The New York market is on another boom. Evidently Wall street thinks it is sharing time for the lambs who feared to jump in while an election was pending.

Language cannot express the feeling of a deaf-mute who steps on a tack in the dark.

## Tune In

(Courtesy of Radio Digest)  
Program for Nov. 13  
(By the Associated Press)

WSB—Atlanta Journal (429) 8-9 program; 10:30 organ, Bernard and Robinson.

WCBD—Zion (345) 8 organ, quartet, solos, trombone.

"Rat-Dog" Is Latest Breed

SEATTLE, Wash., Nov. 12.—A new species called a "rat-dog" was exhibited here by Julius Stankus, a Yukon river pilot, on his return from the North. He said his puppy was a cross between a muskrat and

a malamute dog. The muskrat gives us. He added that he obtained the dog a heavier fur for protection pet from Indians at Fort Yukon, against intense cold, explained Stankus who breed the type for dog teams.

## Habits of Child Must Be Studied To Correct Teeth

DALLAS, Nov. 12.—Habits of the child must be studied in efforts to correct condition of teeth, Dr. M. Evangeline Jordan of Los Angeles, said today in an address before the American Dental Association.

As the teeth are only a part of the body and deteriorate as the body deteriorates, anything that causes disease of the teeth, while not noticeable so immediately, later will appear in some form of disease on another part of the body, Dr. Jordan asserted.

"Whether nursed or bottle fed the average infant should be given vegetable and fruit juices after his sixth month, and puree of vegetables at the 12th month," Dr. Jordan continued. "The child should be fed from a cup at an early date and should not depend upon a bottle to put him to sleep. He should be taught to masticate thoroughly hard food as soon as the baby teeth are in position. Candy should not be eaten, if ever, until after the permanent teeth are fully developed, as it satisfies the appetite and foods containing minerals are not eaten. Gum chewing has something of the same effect."

"Another dangerous habit is sleeping on an arm or hand or the face and this can cause as much malformation of the jaws as lip or thumb sucking."

## Silent Barrage Against Disease Set Up on Entire British Coast

(By the Associated Press)  
LONDON.—Officials of the ministry of health declare that they have set up a silent barrage against plague, typhus fever and cholera which costs the country only \$500,000 yearly "probably the cheapest insurance premium in the world."

An official stated that the whole of the coastline of Great Britain and the shores of navigable rivers are included in a sanitary district, the council of which is responsible for dealing with any sea-borne infectious diseases that may be introduced into the districts.

The work of medical port officers never ceases, it is going on day and night, and is a "silent" service, the ministry asserts.

therefore 10¢

# Granger Rough Cut

## A Pointer on Tobacco—

The slower a tobacco burns, the cooler it smokes. Also the longer it lasts. This slow burning is due to the "cut". Granger is "rough cut" to smoke slow and cool—cut for pipes, not cigarettes. And Wellman's famous old secret method produces richer fragrance and taste.

**JAPANESE GOV'T. RAILWAYS  
TO BE ELECTRIFIED SOON**

(By the Associated Press)

LOS ANGELES, Nov. 12.—Elec-  
trification of some 400 miles of  
main lines of the Japanese govern-  
ment railway forms a part of the  
industrial program providing for  
many public improvements adopted  
in Japan, it was stated here by T.  
Ogawara, of Tokio, assistant direc-  
tor of the government railway en-  
gineering bureau.  
Ogawara heads a group of five  
Japanese railway officials in this  
country to purchase electrical equip-  
ment for the new system. During  
their stay they will inspect hydro-  
electric plants, electric railways and  
the establishments of the leading  
manufacturers of electric equip-  
ment.

INSERTIONS OF  
PLAID SILK GIVE  
INDIVIDUALITY

There is going to be considerable  
moving in the community this year.  
Ruth Millican has gone to Mil-  
burn.

Mrs. Sales and children, Miss Ola  
and Dalton, returned Saturday from  
visiting relatives in Arkansas.

Mrs. Miller has been suffering  
from a spider bite.

Mr. and Mrs. Frank Mayfield and  
family of Union Valley visited Mr.  
and Mrs. W. W. Jones and family  
Sunday.

Enough money was made up Sun-  
day night to buy some new song  
books for the singing class.

Mr. Balthrop has a new radio.

Mr. and Mrs. Tension spent a  
few days at their place near Asher.

Mrs. Dovie Jones of Coleman is  
visiting her mother Mrs. Bonds.

Flora Luther visited friends at  
Union Hill Sunday.

Misses Fay Covert and Fay  
Clark of Ada, Mr. and Mrs. John  
Covert Sunday afternoon.

Mr. Corter and son, Leo, returned  
Sunday night from western Okla-  
homa.

Mr. and Mrs. Roy Rushing and  
baby from Healdton spent Friday  
night with Joe Rushing and family.

Chas. Rushing took dinner with  
Clary Goggans Sunday.

Clarence McCurry, Mr. and Mrs.  
Luches, Ray Ake, Marion and Earl  
Muncrief drove from Altus Thurs-  
day.

Mr. Goggans accompanied by Mr.  
Adams of Union Hill left Monday  
to visit points in Texas.

Born to Mr. and Mrs. Clifford  
Ray Tuesday night a 10 pound boy.

Emmit Sanders spent Saturday  
night with Ceary Goggans.

School started Monday with 111  
present. Several others will start  
this week.

A dozen little recitation chairs  
have been bought for the primary  
room.

There will be a pie supper at Col-  
bert Thursday night. Everyone is  
invited.

**SOCIETY MOTHER  
BARS DIVORCEE AS  
DAUGHTER-IN-LAW**

Because she is a divorcee, the  
mother of wealthy young Peter  
A. B. Widener II of Philadel-  
phia, is reported to have refused  
to sanction his marriage to Mrs.  
Gertrude Douglas Peabody  
(above).

**Classes in Fine  
Arts Department  
Prove Popular**

Fine Arts classes at East Central  
college are claiming much atten-  
tion in the curriculum of elective  
and required works this year and  
especially the classes under the per-  
sonal supervision of Capt. Montin,  
who is heading the department for  
his first year at East Central.

A number of classes under Capt.  
Montin have proven intensely in-  
teresting for students, who are tak-  
ing more this quarter to his work  
than during last quarter.

Capt. Montin was director of one  
of the Army's largest service bands  
during the World war and his abil-  
ity as a band leader is recognized  
by members of his organization and  
by the public. He plays any in-  
strument.

A native Frenchman, yet a zealous  
American, Montin's brogue  
makes his courses of instruction  
highly interesting. He speaks sev-  
eral languages fluently.

Montin's classes in music appre-  
ciation and orchestration are new  
at East Central this year and from  
the outset have been in demand  
by students, who have shown much  
interest in the work.

The classes in music appreciation  
aim at a better understanding of  
better music, the authors and other  
details of the accepted musical  
offerings. Classes in orchestration  
are also proving popular, since Ada  
has such an abundant crop of mu-  
sicians. Instruction in this class  
deals with familiarizing students  
with various instruments individu-  
ally and collectively and teaching  
students in orchestra directing.

**COLBERT**

In spite of the weather Sunday  
we had an interesting Sunday  
school.

There is going to be considerable  
moving in the community this year.

Ruth Millican has gone to Mil-  
burn.

Mrs. Sales and children, Miss Ola  
and Dalton, returned Saturday from  
visiting relatives in Arkansas.

Mrs. Miller has been suffering  
from a spider bite.

Mr. and Mrs. Frank Mayfield and  
family of Union Valley visited Mr.  
and Mrs. W. W. Jones and family  
Sunday.

Enough money was made up Sun-  
day night to buy some new song  
books for the singing class.

Mr. Balthrop has a new radio.

Mr. and Mrs. Tension spent a  
few days at their place near Asher.

Mrs. Dovie Jones of Coleman is  
visiting her mother Mrs. Bonds.

Flora Luther visited friends at  
Union Hill Sunday.

Misses Fay Covert and Fay  
Clark of Ada, Mr. and Mrs. John  
Covert Sunday afternoon.

Mr. Corter and son, Leo, returned  
Sunday night from western Okla-  
homa.

Mr. and Mrs. Roy Rushing and  
baby from Healdton spent Friday  
night with Joe Rushing and family.

Chas. Rushing took dinner with  
Clary Goggans Sunday.

Clarence McCurry, Mr. and Mrs.  
Luches, Ray Ake, Marion and Earl  
Muncrief drove from Altus Thurs-  
day.

**Celebrates at 80.**

Tuesday, November 11, the 80th  
birthday of Mrs. Biddie Sloan, was  
celebrated by cooking an old fashion  
dinner with her own hands. A num-  
ber of her children, grand children  
and great grand children were in-  
vited. Mrs. Sloan was born in Geor-  
gia near Attontre and lived in Mis-  
sissippi, Arkansas and Texas before  
coming to the Indian territory in  
1804. She is the mother of nine  
children and has 42 grand children  
living and 18 dead, and 22 great  
grandchildren. Mr. and Mrs. Sloan  
joined the Cumberland Presbyterian  
church and had the pleasure of  
seeing all of her children Christians.  
Her husband died in 1885. Mrs.  
Sloan is hale and hearty and bids  
fair to enjoy many more birthdays.

After dinner was served, those  
present enjoyed a social afternoon  
discussing old time and old ways of  
making a living.

**SLAYER OF TILGHMAN  
ARRESTED BY STATE**

OKLAHOMA CITY.—Wylie Lynn,  
federal prohibition enforcement of-  
ficer of Wewoka, who killed William  
E. Tilghman, Cromwell marshal,  
November 1, was arrested on a  
state warrant at Chickasha late  
Tuesday when F. E. Kennamer, fed-  
eral district judge dissolved a tem-  
porary restraining order which he  
issued Monday enjoining the service  
of the warrant.

Immediately after Matt Sanky,  
sheriff of Grady county served the  
warrant in the absence of J. A.  
Doyle, Seminole county sheriff, at-  
torneys for Lynn filed an applica-  
tion for a writ of habeas corpus in  
the federal court.

Hearing of the application for the  
writ will be heard in Tulsa Janu-  
ary 7 before assigned judge.  
Judge Kennamer announcing he  
would disqualify himself, Lynn was  
released on \$10,000 bail pending  
the hearing in Tulsa.

Kennamer dismissed the restrain-  
ing order on motion of Edwin Dab-  
ney and N. W. Gore, assistant at-  
torneys general, who represented the  
state at the hearing.

Frank Lee, United States district  
attorney from Muskogee, argued  
against the jurisdiction of the state  
court and declared that if Lynn was  
tried at Wewoka he feared mob  
violence as feeling is high there  
against Lynn. Dabney pointed out  
that a change of venue could be ob-  
tained if this condition was found  
to exist.

**Pussum Hunt for  
Scouts Attending  
Church Services**

Every Boy Scout and every other  
boy who will go to church at the  
Christian church Thursday night  
will have a chance to see several  
big, live fat and juicy possums  
caught, according to Roy Meek,  
scout master of troop 4. A special  
sermon will be preached to boys  
by Rev. Merrill Thursday night,  
which will be short, right to the  
point and interesting to the boy.  
The church service will close  
promptly at 8:30 and then the min-  
isters have promised to join the  
scouts and others on this hunt.  
Boys are urged to get all their les-  
sons up Thursday afternoon so that  
they will be free to attend the  
church services, catch Mr. Possum.  
Mr. Granville Montgomery of the  
Ada Marble Works has kindly con-  
sented to donate his truck for trans-  
porting the boys.

Buy it—rent it—sell it—find it  
with a NEWS want ad.

**SIMPLE LINES  
ADD DISTINCTION  
TO WINTER COAT**

Very simple lines and plain  
material are used in this hand-  
some winter coat which relies for  
its distinction on the collar and  
front facing of Hudson seal fur.

British Railway Casualties.  
(By the Associated Press).  
LONDON—Reporting on the ac-  
cidents which occurred in working  
the railways of Great Britain dur-  
ing 1923, the ministry of Transport

says that 743 persons were killed  
and 23,240 injured, as against 728  
and 19,462 respectively in 1922.

Years sometimes pass before a  
race horse's value is realized.

**Catering to the Mother  
With Winter Apparel for  
BOYS AND GIRLS**

Men and women are no more whimsical than the young-  
sters when it comes to selecting right-up-to-the-minute  
apparel. They love to shop where they are sure to find  
correct styles and treated courteously—in fact, just like  
real grown-ups. Juniors will like to visit here—and we  
cordially invite them as well as the careful, selecting  
mother.

**Young Misses'  
WINTER COATS**

Ages, 3 to 12

4.95 6.75 9.95

Now, stylish looking Winter Coats in cloths, appealing  
and satisfactory. Chinchillas, velours, brushed wools  
and polo fabrics in plain light and dark shades, plaids  
and self blocked materials. Trimmed with furs, large  
self collars and embroideries.

Ages 3 to 12.

**Young Misses'  
WOOLEN DRESSES**

Ages, 4 to 14

4.95 5.75 9.75

Made with chic, jaunty little Peter Pan collars in splendid  
materials for school and Sunday wear. Serges, woollens  
crepes, pressed flannels, jersey cloths and pleasing  
fabrics, as well as color combinations. Tans, blues and  
browns, plain and pleated checked skirts with embroidered  
blouses. Others unified with same materials.

**Warm Winter****UNDERWEAR  
for Boys and Girls****Combination Unions**

White, medium ribbed warm  
fleece lined unions with bodice  
waist attachments. Long  
lengths in sleeves and legs.  
All sizes.

98c

**Quality Unions**

Good weight, not too heavy.  
ecru and white fleece lined  
unions in styles for both boys  
and girls. All sizes.

1.23

**Boys' New 4-Piece****SUITS**

7.45 9.95 12.50

Styles and materials that both the mothers  
and boys will like—for they are the sort  
best adapted to real, scuffling school boys.

Woman Sleuth, Bandit Nemesis,  
Quits Force to Lead Quiet Life

(By MARGERY PICKARD)  
Central Press Special  
Correspondent.

NEW YORK, Nov. 11.—The Big City's only qualified woman detective has quit the force. She is tired of chasing criminals. She is going to lead a quiet home life from now on.

Mrs. Oscar Seasholm, better known as Mrs. Isabelle Goodwin, has been on the force for 28 years. She has distinguished herself in several famous cases.

Her first big case, which attracted national prominence in 1912, was the capture of eight bandits who two months before had held up two bank managers in Greenwich Village, escaping with \$25,000. She recovered the money by working herself into the confidence of women companions of the holdup men, all of whom were sent to Sing Sing. For this work she was made a first grade detective.

She entered the police department in 1896. She was then Mrs. Isabelle Goodwin, wife of a round man and mother of three children. Within three months her husband died and the young widow had to support the family on her pay, \$1,000. She educated the three and sent her daughter to a French convent in Quebec. Neither home nor children suffered from her work.

The first opportunity for Mrs. Seasholm to distinguish herself came when the police department was flooded with letters complaining of the practices of fortune tellers. Visiting many of the clairvoyants Mrs. Seasholm collected such damaging

evidence that many were sent to Sing Sing. She was credited with the wiping out of the fortune tellers. From that time her progress was rapid.

Slender, fairly tall, always plainly dressed, the feminine sleuth long has been conspicuous among the brawny six-foot detectives in the bomb squad.

HOW GREAT MEN  
MAKE LOVE

AS REVEALED BY THEIR LOVE LETTERS

By JOSEPH KAYE

(© by Wheeler Syndicate, Inc.)

## BRET HARTE AND ANNA GRISWOLD

THIS is another of those husband-and-wife love letters which appear quiet and unromantic and in reality are more potent love letters than the ardent phrases of the pre-ceremony missives. Bret Harte married Anna Griswold when he was but twenty-three and during his lecture tours and other trips away from home, his every change of mood, every recurrence of good luck and ill luck, every episode of his experiences were at once relayed to his confidante at home.

"I have telegraphed you twice from Washington," he writes from Pittsburgh, on January 9, 1872, to his wife, "and once today from Pittsburgh. And now I send you many and happier returns of your birthday, dear little woman. I've gone along thus far and very fairly and without delay. My Washington lecture was crowded; the audience was almost as quick and responsive as the Boston folk and the committeemen, to my great delight, told me that they made money by me. You will be sorry to hear that I felt dreadfully lonely on my Washington trip and you will be sorrier to hear, you infamous women, that my luncheon was mitigated by meeting Miss Binny Banks and her mother in the train. You may remember that I met Miss Banks at Burlington's little dinner—but she was lovely.

"How you would have enjoyed this trip with me!" "Finding that I would be two or three hours in Baltimore on my way to Pittsburgh, I telegraphed to Chiss Mayer to meet and sup with me. He met me at the depot; we went to 'Guy's'—a famous restaurant—and had a nice supper, and then we spent the last half hour of our limit at Brantley Mayer's house with your cousins. 'Miss Kate' and 'Jenny' were on their way to a party and there were one or two others whom I had not seen before. They all regretted you were not with me and made me promise to bring you in the early spring to spend a few days.

"I am looking from the windows of my hotel on the Monongahela river, with all sorts of queer fathoms and barges passing and repassing. How you would have enjoyed it! The mail leaves in a few minutes. I conclude you are better off you would have telegraphed me. Kiss the chickens for me, Nan, and look for the safe return speedily of your own. Frank."

During his courtship days Harte chose to address to his beloved numerous love poems, of which the following stanza is a sample:

## SERENADE

(Adapted to the latitude of San Francisco.)

O list, lady, list! while thy lover outside  
Pours forth those fond accents that thrill thee;

O list! both thy doors and thy windows beside

For fear that some thorough draught chill thee.

The sweet summer moon's hanging low in the sky,

And the fog's drifting wildly around me;

There's damp in my throat, there is sand in my eyes,

And my old friend Neuralgia has found me.

Bret Harte was the pioneer novelist of the pioneer days of California. His short stories rank with O. Henry's and picture as faithfully and realistically American life of the period.

Overeating is said to be much more common in the north of England than in the south.

WOMAN IS LEADER  
IN SUIT OF INDIANS  
FOR LAND PAYMENTS

Mrs. Laura C. Kellogg, Wisconsin author, and Oneida Indian, is heading a group of Indians of the "Six Nations" in a movement to sue the government for large sums of money in payment for lands surrendered by the tribes to the states many years

American Legion posts throughout the United States are assisting the schools, patriotic societies, civic organizations and other loyal units in preparing for a nation-wide observance of American Education Week, November 17 to 23.

Education Week, which has now become a national institution, is nationally sponsored by the Legion, the National Education Association and the United States Bureau of Education.

Special subjects are assigned for each day for exercises in public schools and colleges, general assemblies, chambers of commerce, labor organizations, fraternal bodies, luncheon clubs and other cooperating agencies.

Monday, November 17 is named as Constitution Day.

Tuesday, November 18 as Patriotism Day, when a program showing that the United States flag is the living symbol of the ideals and institutions of our Republic will be given.

Wednesday, Nov. 19—School and Teachers Day.

Thursday, Nov. 20—Literary Day.

Friday, Nov. 21—Physical Education Day.

Saturday, Nov. 22—Community Day.

Sunday, Nov. 23—For God and Country Day, when ministers of all denominations are urged to preach a sermon on education, either morning or evening.

Many communities are arranging a special observance of Community Day for which the following slogan has been adopted:

"Service to Community, State and Nation is the duty of every citizen."

Among the subjects to be discussed on Community Day are:

1. Equality of opportunity in education for every American boy and girl.

2. Better rural schools.

3. Adequate public library service for every community.

4. A Community's concern for education measures its interest in its own future.

5. Good roads build a community.

Among the objects of community day are:

"Get acquainted with your neighbor."

"A square deal for the country boy and girl."

"Children today—Citizens tomorrow."

Citizens in every community are urged to visit the schools especially during Education Week.

In the furtherance of the Legion's fight against illiteracy Department Commander Jim Hatcher, Chickasha, has recently completed a series of addresses throughout the state.

Among the communities visited by the Legion Commander are:

Ada, where an address was given at the East Central teachers college, where hundreds of teachers of the Eastern Oklahoma associations were in session.

Following his address at Ada, Hatcher spoke before the teachers at Durant.

While on Nov. 8, the Department Commander spoke before the Stevens County School board at Loco.

Following Hatcher's tour in the interest of the eradication of illiteracy movement, an official inspection was made of the Soldiers Memorial Hospital at Muskogee, where he met each of the 350 "buddies" of the Legion now in "Trench 90."

Announcement of the judges in the American Legion's National Essay Contest has recently been made by Garland W. Powell, chairman of the Legion's Americanism commission.

Dr. William Mather Lewis, president of George Washington University, W. W. Husband, United States Commissioner General of Immigration and George F. Authier, president of the National Press club, Washington, D. C., have agreed to judge the Legion's 1924 national essay contest and will make announcement of the winner in January.

The contest, which ran from April 1 to June 15, 1924 was open to all school children between the ages of 12 to 18, inclusive, and was on the subject "Why Communism is a menace to Americanism."

Three prizes, \$750, \$500 and \$250 will be awarded winners of first, second and third places, respectively for us in financing high education.

HORNS ON MOSES STATUES  
EXPLAINED BY U. S. SCULPTOR

CHICAGO, Nov. 12.—How the statues of Moses came to be made with short horns protruding from each side of the forehead, is explained by Lorado Taft, noted sculptor here, to have been due to the improper translation of the word "glory" by sculptors of that period.

"The Hebrew word for 'glory' and so meant 'horn,'" Mr. Taft said, "and in translating it into Greek the word 'horn' was used instead of 'glory.' Hence, the sculptors of the period literally carried into effect this improper translation.

"Thus in the great statue of Moses, by Michael Angelo, we see Moses equipped with horns. The original of the Angelo statue was of heroic size, in marble, and was designed for the tomb of Julius II; but the tomb was never finished and the statue is now in the Church of San Pietro, in Vincenza, Rome."

Saucepans, baking tins and similar utensils should be filled with clean, cold water as soon as their contents have been removed.

Artists Think  
Music Should be  
Taught to Child

"Music should be a part of the education of every child," says Marie Tiffany. "It develops the sympathetic type of audiences which every artist dreams about. They are the severest critics a singer ever faces. A concert for children must be simply a delightful story hour, with a tale told in music. It should stimulate and satisfy the imagination."

"Because this gifted artist of the Metropolitan opera company entertains such sound ideas about children and their musical needs, her recitals to young folks take one back to Maude Adams and Peter Pan. The whimsical faery of the songs, that catch also grown-ups, and the glowing youth and sparkle in her voice, to say nothing of her bewitching manner and roguish smile, with a complete absence of exaggeration, make her work in this line especially delightful and unique. She touches the imagination of the child and so catches and holds its interest."

Her delineations of "Mother Goose," set to music and "Alice in Wonderland" require a special technique which shows how intensively she has studied every phase of the delicate myths of European folk lore and applied it to her splendid art. That she has a very real interest in music for children is self-evident, and because of her deep sympathy with and appreciation of the work of the Federation of Music Clubs which caters to activities of this peculiar kind through its junior branches, is one of the few singers endorsed by this organization.

"Music is a dominant factor in life," said an editorial recently. Yes, when it finds expression through the voice of a singer—then it becomes real and influential like that of Marie Tiffany, the idol of children and of grown-ups too.

Miss Tiffany will sing at the College auditorium this evening.

PREVENTION OF TOOTH  
DISASTER NOW SOUGHT

(By the Associated Press)

DALLAS, Tex., Nov. 12.—Prevention of tooth disease was suggested as a suitable public health procedure by Dr. Harold DeW. Cross, director of Dental Infirmary for Children, Boton, in his paper presented at the annual convention of the American Dental Association today. He declared that public health service only recently has begun to give attention relatively to matters of health not dealing with the immediate preservation of human life, with practically no attempt to control or prevent the serious condition of children's teeth, especially by health authorities.

"Far from advocating any treatment for advanced tooth disease," the speaker said, "it is suggested that the prevention of it is a suitable public health procedure. One reason why health authorities do little along the lines of preventive dentistry is because of a lack of training, knowledge and experience by dentists in this relatively new field."

"There is now sufficient knowledge as to methods and policies needed to produce results in dental health work, so that no community or health department need wait for more information. It is only a question of getting at this knowledge, and a willingness to put into operation the essential policies."

Scientist DENIES SUN SPOTS ARE CAUSE OF EARTHQUAKES

BERKELEY, Cal., Nov. 12.—Fear that earthquakes may result from the accumulation of spots on the sun is without scientific basis, according to W. F. Meyer, associate professor of astrophysics at the University of California.

The sun spots, which have been causing much speculation lately, are under continual observation at the university and at other observatories.

Professor Meyer said: "Although these spots are constantly coming together and breaking up to form new ones, the total area is not increasing to any appreciable amount. As far as we know, they have nothing to do with cyclones on the earth or with our weather conditions in any respect."

The only noticeable effect is on the auroral displays at the Pole and in causing magnetic storms, which sometimes interfere slightly with telegraphy."

Systematic Inspection Of School Children in Virginia is Success

(By the Associated Press)

DALLAS, Tex., Nov. 12.—Systematic inspection of school children in Virginia for defects of vision, hearing and teeth has shown dental defects to be greater than all others combined, Dr. N. Talley Ballou, director of mouth hygiene of the state board of health of Virginia, said today in a paper read before the American Dental Association, in convention here.

"Virginia occupies a unique position from a dental standpoint, although it was not the first state to develop rural dental clinics as a part of its state health work," Dr. Ballou said. "It was the first, however, to work out a co-operative plan by which dental clinics were made available to any county in the state."

The Virginia plan provides that if a county, either from public funds or private contributions, raises a fund of not to exceed \$500 for any one year, the state will supply an equal amount. The children are required, where financially able, to contribute at the rate of 50 cents for each operation, but no child is denied treatment on account of being unable to contribute. In such cases the cost is met by the state and county. The difference between the amount contributed by the children and the total cost of the clinic is paid from the county and state fund.

## TIME TO FACE THE FACTS

"So much has been said against the use of patent medicines that I have had a strong prejudice against them. But after four years doctoring with six different doctors, without results, for acute indigestion, gastritis, constipation, appendicitis and other ailments, I was said to possess, I was encouraged to try Mayr's Wonderful Remedy, seeing what it had done for a friend similarly afflicted. I also was entirely relieved of my trouble, and am sure this medicine will do all and more than is claimed for it. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince of money refunded. Gwin & Mays and druggists everywhere.—Adv."

## Confesses Crime After 22 Years To Ease Torturing Conscience

(By Central Press)

BIRMINGHAM, Ala., Nov. 11.—Oliver Cameron, 51, is happy today behind the bars of the Alabama state penitentiary. He has not been happy for 22 years, during which he has fled the spectre of a friend he thought he had killed.

In 1902, he quarreled with William J. Gay here. Cameron then was a young man, twenty-nine years old, violently in love with his landlady. At that time the woman was engaged in a business transaction with William E. Gay, Cameron, jealous, disapproved of the deal.

So wrought up did he become that he arose one morning and met Gay near a small stream to discuss the affair. The argument further enraged Cameron and he drew a revolver and shot Gay three times.

Gay dropped to the ground and Cameron fled.

Believing that Gay was dead, Cameron sought distant climes. He lived for several years in Central and South America and finally drifted to the Pacific Coast. Always, his conscience harassed him. Remorse was his bed-fellow and terror of

capture stalked him by day and by night.

A few months ago he attempted to commit suicide by drowning at Portland, Ore. He was rescued and in the police station told how he had killed a man in Alabama 22 years before. He asked to be taken back.

And so, he was brought back here, where he had not been since the night he shot Gay, penitently aged, a wreck of a man.

And they told him that Gay was not dead, that he had recovered from the bullet wound and was still living, at the age of 81 years, in Georgia.

Cameron had expected to face a charge of murder. Instead he pleaded guilty to assault and was sentenced to a term of two to five years in the penitentiary. Gay returned to face his assailant of two decades ago. He was the only witness.

Twenty-two years of repentance over a murder that did not occur; two years of imprisonment—that's the price Oliver Cameron is paying for a quarrel with a friend.

The local cotton market was higher today than for a long time, the top being 23.50. Although the season is nearing an end, receipts were fairly good.

On all of these journeys, however the passenger soon realizes that the most serious defect in the Russian railroad service is the deplorable condition of the tracks, the roadbed and the crossings, which have not been replaced for years.

The railroads in Russia are run at a great deficit. The repair of the badly worn rolling-stock, the renewal of parts, the building of new passenger and freight-cars, the strengthening and repair of insecure bridges, and the reconstruction of ruined water-towers and round-houses, have entailed enormous expense. The Soviet authorities are trying to secure a loan abroad for the Russian railroads, but the terms have not been sufficiently liberal to attract foreign capital.

### FRISCO.

A good rain would be appreciated by all and the indications this (Monday) morning are that we are going to get one soon.

Bud Blackwell and family have returned from the cotton belt of Oklahoma where they have been for several weeks.

Mrs. Will Gray is spending a few days with her sister, Mrs. Duard Thomas of Stonewall.

James Patton has returned from an extended visit to relatives at Stigler.

L. T. Daniels left Wednesday for a visit to relatives in Alabama.

Mr. and Mrs. Ray Wilmoth and baby of Sulphur were here last week visiting her sister, Mrs. Fess Little and family.

O. M. Sallee was in Stonewall last Thursday.

Mr. and Mrs. H. C. Hoyle were visiting in Ada last week.

Mr. and Mrs. B. N. Sallee spent Sunday with their son, Ollins and wife.

Ed Leonard and wife left last week for Childress county to reside.

E. T. Huggatt and family visited relatives at Ahloso Sunday afternoon.

Mrs. A. D. Gilstrap will move this week to the home of her son, Ira, where she will make her home in the future.

Mr. and Mrs. S. P. Johnson will leave the latter part of the week for Junction to reside.

The gin here closed for the season last Saturday. There were nine hundred and ninety bales ginned here which was a third more than was ginned last year.

## OH! MY BACK!

Aching Backs Make Life Miserable for Many Ada People.

It isn't right to suffer day in and day out with dull, unceasing back-ache. Or be utterly miserable with sharp stabs of pain whenever you stoop or lift. But chances are you will suffer these tormenting aches and pains as long as your weakened kidneys are neglected. You may have headaches, too, spells of dizziness and urinary disorders. Then use Doan's Pills—a stimulant diuretic to the kidneys. Experiences of Ada people prove the merit of Doan's.

Mrs. J. L. Carter, 305 E. 9th St., Ada, says: "I had a dull, nagging ache across the small of my back and felt lame and languid. My kidneys acted irregularly, also. Doan's Pills relieved me of these attacks and put me in good health."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Pills—the same that Mrs. Carter had. Foster-Milburn Co., Mfrs., Buffalo, N. Y.

## Despite Poor Tracks Russian Trains Give Efficient Service

MOSCOW.—In the midst of the general industrial prostration, social disintegration, and the breakdown of many of the normal processes of life in Russia, nothing seems so striking as the efficiency and comfort of the railroad service. Although the Soviet has far from an adequate number of locomotives or passenger coaches, it maintains a travel service which, in much below the standard of imperial days, is at the same time a credit to the country with its present depleted resources.

Americans and other foreign visitors may travel from Warsaw, Berlin or Riga to the larger cities of Russia and enjoy many of the comforts which existed before the war. Although there are, as a rule, no dining cars on these trains, passengers may secure wholesome food at the station restaurants along the route. There are no regular sleep-

cars, as in pre-war days, but comfortable berths and compartments of the local Russian type, equipped with clean bed linen, usually can be secured. First-class fares are considerably less than in the United States.

On most of the longer routes with in Russia, regular sleeping and restaurant cars are maintained and, except in the matter of speed and the number of trains daily, the service falls little short of the pre-revolution standard. Between Moscow and Petrograd there are several excellent trains daily. First-class trains are run also from Moscow and Petrograd to Batum, Tiflis, Bakus, Odessa, the Crimea, and other points. Once a week there are express trains between Moscow and Vladivostok, with international sleeping cars and diners attached, the trip occupying about 12 days.

## HOW GREAT MEN MAKE LOVE

AS REVEALED BY THEIR LOVE LETTERS

By JOSEPH KAYE

(© by Wheeler Syndicate, Inc.)

### GOV. JOHN WINTHROP AND MARGARET WINTHROP

GOV. JOHN WINTHROP was a distinguished Englishman who was appointed governor of Massachusetts and upon whose principles largely the commonwealth of Massachusetts was established. The correspondence he left shows that he was as loving a husband as he was a wise leader, and both the governor's letters and those of his wife preserve in a charming manner the tenderness of their love for each other.

"My dearest Husband," wrote Mrs. Winthrop, "I know not how to express my love to thee or my desires of thy wished welfare, but my heart is well known to thee, which will make relation of my affections, though they may be small in appearance; my thoughts are now on our great change and alteration of our course here, which I beseech the Lord to bless us in, and my good Husband cheer up thy heart in the expectation of God's goodness to us, & let nothing dismay or discourage thee; if the Lord be with us, who can be against us: my grief is the fear of staying behind thee, but I must leave all to the good providence of God. I thank the Lord we are all here in reasonable good health. I received a letter since you went from my son John, which brought good news from New E. I pray thank him for it, I will write to him if I have time, & thus with my best respect to thyself, brother and sister D.: I commit you to God and rest."

"Your faithful wife,  
"MARGARET WINTHROP."

To which Winthrop replied:  
"Dearest. . . I am still delighted from thee but it is by the Lord, who hath a greater interest in me than myself, when His work is done He will restore me to thee again to our mutual comfort: Amen. I thank thee for thy sweet letter: my heart was with thee to have written to thee every day, but business would not permit me. I suppose thou hearest much news from hence; it may be, some grievous to thee; but be not troubled, I assure thee things go well, & they must needs do so, for God is with us and thou shalt see a happy issue. I hope to be with thee tomorrow and a friend or two: I suppose. So I kiss my sweet wife and rest."

"Thine,  
"JO: WINTHROP."

### Poland Forced to Buy U. S. Grain Because Floods Reduce Harvest

(By the Associated Press)

WARSAW.—Rain and flood have reduced the harvest of grain in Poland this year, although the sown area is larger than it was last year. Poland, therefore, will be forced to purchase more grain in America than last season.

The Polish-American Chamber of Commerce will take steps to protect the consumer by getting hold of the chief supplies from United States and selling them as cheaply as possible. Stanislas Arcet, formerly Polish High Commissioner for food purchases in America, will go to the United States in this connection.

### Anti-Rolling Tanks on Ocean Liner Tested in Rough Sea.

(By the Associated Press)

STOCKTON, Nov. 11.—The efficiency of anti-rolling tanks was determined on the last trip of the Hapag liner Albert Ballin from New York to Hamburg, when the ship for the first time encountered rough seas. Scandinavian Shipping News reports that the gyroscope-pendulum indicated a rolling movement of six degrees against the horizon with the tanks in operation.

When the anti-rolling device was put out of service, the steamer rolled instantly up to an angle of 16 degrees.

## Two Women Considered For British Cabinet, One American-Born

Two women, one of them American-born, are in line for appointment as members of the new cabinet now being formed in Britain by Stanley Baldwin. They are: The Duchess of Atholl (left) and Lady Nancy Astor, both of whom are conspicuous figures in English politics. Lady Astor was Miss Langhorne of Virginia.

## Splendid Capital for India's Millions Nearing Completion

LONDON.—Despite unforeseen obstacles and many delays incident to the great war, the work rearing the new Indian capital at Delhi has gone steadily on, and latest reports to the India Office indicate that the first of the new buildings will be occupied by the end of next year.

Thus will be realized one of the greatest building achievements of modern times. The new Indian capital is rising from a desolate and barren waste. The present English monarch, a king-emperor at his coronation durbar in 1912, announced the decision to transfer the capital from Calcutta to Delhi, not the old city of that name, but an entirely new municipality to rise from a reclaimed desert outside and beyond the older settlement.

It was in 1913 that the town planning committee reported in favor of the so-called Raisini site, beyond old Delhi. Although the intervening years of war and reconstruction have doubled the expense of the original project which will cost at least \$45,000,000 and many more millions in years to come, the work has never once been suspended since it was started.

The principal architect of the new Delhi is Sir Edwin Lutyens, who plans to make it his crowning achievement. Associated with Sir Edwin is Herbert Baker and a score of lesser famous architects.

Sir Edwin Lutyens himself is the architect of the government house, the central building of the whole scheme, which will contain among other official quarters the state residence of the viceroy. It is now promised that this building will be ready for occupancy late in 1926.

Sir Edwin Lutyens and his associates are engaged in a work not unlike that which Major L'Enfant achieved in laying out the city of Washington. Each was given the task of preparing plans for a city to be built from the very beginning. In the scheme for the Indian capital, the government house will occupy a pivotal position in the municipal plan.

Prices 15c and 35c. We Urge You to Come Early

## Farm Column

It is reported that the turkey crop of the United States as a whole is somewhat short this year, hence there is a prospect for better prices than prevailed last year. This is good news for Pontotoc county farmers, for there is a considerable sprinkling of turkeys all over the county, at least in all parts that I have been over. I have seen only two or three big flocks but a great many people have flocks of various sizes.

Occasionally we see advertisements of stuff to be fed to chickens that is claimed will kill lice and other parasites that infest the bodies of the birds. The United States department of agriculture has examined these remedies and says they are no good. The only way to reach them is by external applications and of these calcium fluoride is the most effective.

It is only about a month until the Pontotoc county poultry show is held. I hope to see more exhibits than ever entered this time. There are some good flocks in the county but not many enter their birds in the show. The show is the best means of advertising what one has that I know and those who wish to get good prices for good stuff should by all means be represented.

### VANOSS

Hello, central! please give me the Ada News as I would like to spread the Vanoss happenings over Pontotoc county.

Dr. Smith and daughter Agnes returned the latter part of the week from a few days visit at Washington, Oklahoma.

Mr. and Mrs. B. D. Garland motored to Oklahoma City last week where they visited relatives.

Mrs. Sybe Brooks and daughters Violet and Dorris of Cushing are the guests of the former's mother, Mrs. Adella Jones this week.

Mr. and Mrs. Carl Solomon was among the Ada visitors Saturday. Ray Stegall, who is teaching at Beebe was the week-end guest of his parents.

Mr. and Mrs. Cook and Mr. and Mrs. Gordon Branch moved last week to the farm of O. C. White which was recently vacated by the Hodges.

Prof. Helfin and wife of Ada have moved to Vanoss to make their home during the school term, as

Mr. Helfin is one of the teachers. Misses Connie Clark, Grace Brice and Wasson came in Sunday to be ready for School Monday.

Among the children who attended Mrs. Eddings funeral, were Mrs. Mattie Bohannon of Oklahoma City, Mrs. Delores Morgan of Coalgate, Tim Eddings of Wilson, Mrs. Ona McNair, Jim Eddings and Jake Eddings of Center.

Mrs. Dave Brice and daughter Grace were calling on friends here Wednesday afternoon.

Mrs. J. H. Bradley has been very sick of rheumatism but is improving at present.

Mr. and Mrs. Virgil Norville were Vanoss' visitors Saturday.

Mr. and Mrs. Mayberry Tilly, Mrs. J. L. Tilly and Mrs. Callie Templeman were Ada visitors Saturday.

The funeral service of Mrs. Mary Eddings who died suddenly November 12, was conducted at the Methodist Church by Bro. Grimes of Ada. Mrs. Eddings had been a resident here and near here for many years. She had lots of friends and relatives who will miss her very much.

Mr. and Mrs. C. Hammonds moved to Stratford last week. We will miss them but hope they will like their new home.

Mrs. Edna Mitchell was the guest of her parents Mr. and Mrs. John Hutton Sunday.

Mr. and Mrs. Barton Williams were Ada visitors the latter part of the week.

J. B. McCauley was the dinner guests of Mr. and Mrs. P. G. Smith Sunday. They served turkey in advance of Thanksgiving. Pretty good idea. We should be thankful all the year instead of one day in the year.

The Vanoss consolidated school opened Monday morning with a large attendance and many visitors present to wish the school success. With the following persons at the head, we feel that success is assured in the future as in the past. D. W. Hodges, Supt., Lillie Wauson, principal of High school; S. G. Helfin, principal of grade school; teachers: Bulah Berger, Mrs. Ethel Tilly, Connie Clark, Grace Brice and Mrs. Esther Peek.

O. C. White and D. W. Hodges attended singing at Summers chapel Monday night.

A. H. White made a business trip to Roff the latter part of the week.

Dr. Smith has purchased a radio and Mr. Brady of Ada came out Monday night to set it up.

The crops are about all gathered and the yield has been so much more than we expected that we surely do have many things to be

## SOUTH AFRICA ASKS U. S. MAN FOR ADVICE ON GOLD STANDARD

Prof. Edwin W. Kommerer of the department of economics of Princeton University, has been invited by the Union of South Africa to investigate the advisability of reestablishing the gold standard there. Prof. Kommerer acted as currency and banking expert in the American group in the formulation of the Young-Dawes reparations plan. He will sail for Africa soon.

thankful for. The Master of the universe is always better to us than we deserve. If we would only use what he gives us to glorify him, this world would be a better place to live in and we would all be far happier.

### Californian Has Not Missed Casting Ballot in 79 Years

(By the Associated Press)

OAKLAND, Cal., Nov. 12.—The oldest voter registered in Alameda county for the recent election was Charles F. Lohse, who reached the century mark last spring. Two weeks later he walked to his voting precinct to register for the primary and the general election. He has not missed voting in 79 years.

Born in New York, Lohse came to California in 1849 and was one of the successful gold miners of that period. He is a veteran of the Civil War.

## GLACIERS OF COLORADO ARE VANISHING SLOWLY

(By the Associated Press)  
BOULDER, Colo., Nov. 12.—Colorado's glaciers are vanishing slowly, according to Professor Junius Henderson, curator of the museum of the University of Colorado.

Disintegration of the ice sheets has resulted largely from the excessive hot weather and the dry seasons during the last few years. The great ice masses on the glacier peaks of the Rockies have been in slow retreat for the last 22 years, Professor Henderson declares.

"However, the retreat has been very rapid since 1919," he said, "for climatic conditions have been unfavorable to the accumulation or preservation of ice during that period. This is particularly noticeable in the Arapahoe glaciers, the largest in Colorado."

"If disintegration continues at the present rate, all the glaciers in the state will disappear within the possible exception of two, the Arapahoe and the larger St. Vrain."

Professor Henderson expressed the opinion that the recent dry seasons were only part of the "climatic cycle" and probably would not continue as unfavorable.

Detailed study of the Arapahoe glacier reveals that the great ice sheet has retreated 40 feet within the last 22 years. Corresponding loss is shown on others, large and small, Professor Henderson says.

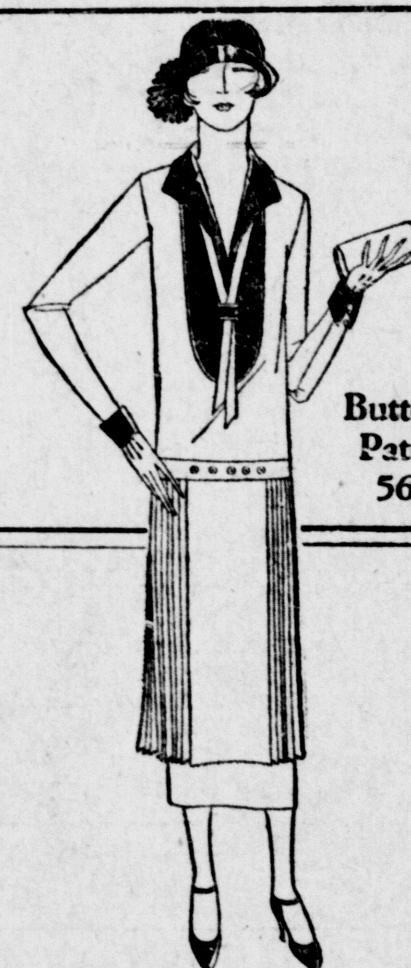

## Auto Robberies Are Solved When Officers Respond

Two cases of auto robberies last night were solved this morning but county officers are still looking for the party or parties responsible for the disappearance of a Ford roadster belonging to Ed Gillette.

The report of the theft of S. M. Shaw's car was later contradicted when the car was located early last night.

Gillette's Ford was not found until this morning when officers located it at the Waples-Platter Grocer company with a casing missing from the wheels.

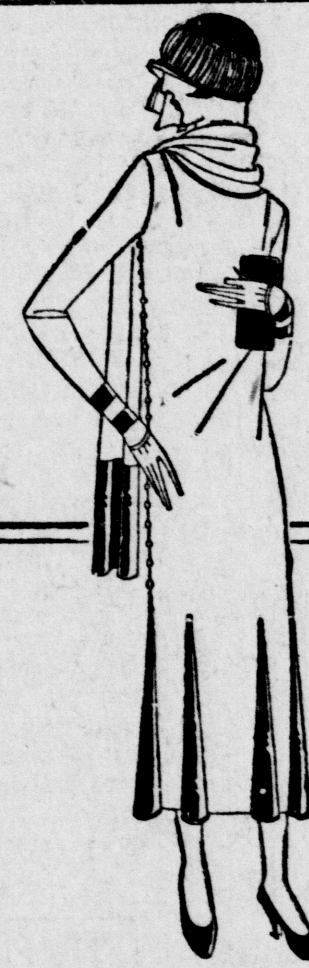

The first woman to seek a seat in the Vermont Legislature is Mrs. Abbie H. Robertson, prominent club woman of Battleboro.

Butterick Pattern 5670

Butterick Pattern 5708

Butterick Pattern 5682

### Featuring the Apron Front

Enclosed with the Butterick Pattern for this dress there is a wonderful dressmaking guide called the Deltor. It shows you with pictures how to make the dress, step by step, from start to finish.

### The Circular Tunic Blouse

Including the lower part of the slip this tunic costume requires only 3 yards of 39-inch material for size 36. The Deltor shows you how to handle the circular lower part of the blouse.

### Inserted Godets Are New

3 yards of 39-inch material for the dress; 1 1/4 yard of 35-inch for the godets and bands on scarf; and 1/8 yard of 40-inch for the center of the scarf are the materials required for this complete costume in size 38.
